

# Help Your Employees Save

## How does it work?

Your employees can now use their commuter benefits and pre-tax dollars to pay for eligible uberPOOL, Lyft Line, and Via rides associated with their commute. No longer will they have to be at the mercy of public transit schedules. They simply request a ride via the appropriate app, select their benefit debit card as their payment method, and start saving.

## Where can my employees use this service?

While not available everywhere, your employees can use their commuter benefits for eligible uberPOOL, Lyft Line, and Via rides- minimum of six passengers required- in the following cities.

### Lyft Line
